

SHUGA BIT

Shuga Bit (*Beta vulgaris L.*) Na shot plant we de tek tu yia fo macho en na pat of di "Amaranthaceae" famili. Shuga bit de gro mo na di meditarenian rijon, en west en sawth Eshia. Som Kayn shuga bit kin gro na dray gron en also de bia weda. Di plant de gro fayn na dem tempret

Wetin di plant want

Di klaymet en aw fo pripia di gron

Shuga bit na winta plant we de gro fayn na dem gron we no de kip wata. Yu fo gi di plant manio fo ep am. Di gron fo get pH we na 6-8. I kin bia saliniti we na 10ds/m. Ge am sol wata we de na di levul fo shuga bit (up to 10-12 ds/m). Shuga bit de gro fayn

rijon we de op to 35cm. Di plant get rut en lif dem we mek lek rozet. In tap rut get big bes en get shep lek kon, I wayt, I get flesh en flat krawn. Di rut de kip shuga en dem kin yuz di lif as fud fo animal dem.

na dem tempret klaymet. Shuga bit no de kech kol. We yu dig dip lek 30-40 cm go ep di plant fo gro fayn.

Aw fo plant

E gud fo plant 60,000 – 80,000 plant/ha. Plant di sid dem na ro dem we get spes 30-40cm en 30cm insay ich ro en di ol fo dip lek 2cm. Fo mek di plant jaminet di gron fo get di temprecho, wata en briz we di plant nid.

Aw fo Manej di plant

Aw fo Manej wata

Shuga bit na plant we want wata. Fen wata rod fo di shuga bit plant usay di ples dray. I fayn fo gi am wata we rich 300mm o ren we go fodom lek 500mm go ep di plant fo gro fayn. If yu yuz sol wata, gi am di amawnt we do fo shuga bit (op to 10 - 12dS/m).

Aw fo put fatalayza

Di fatalayza program fo shuga bit get manio en miniral fatalayza. We yu put manio we na 20 – 30t/ha di tem we yu plant go ep shuga bit in prodokshon. Fo ad mo, 80 kg N + 45kg P₂O₅ + 60kg K₂O kin fayn fo dem gron we no get bete yayam. Mos tem di gron kin nid smol Boron (Bo), Zinc (Zn) en Ayon (Fe).

Avest afta avest en st

Dem kin avest shuga bit fo in fresh rut en lif dem. Gud shuga bit plant de bia fresh rut from 50 – 70 t/ha en fresh lif bayomas we na 10t/h. Dem kin yuz di rut fo prodyus shuga bikos i get boku sukros en dem kin also yuz di lif dem as fud fo animal dem.

Aw fo kontrol dem bad gras

If boku bad gras mix wit di shuga bit plant i go ridyus 50% pan wetin yu fo avest pas yu fen gud we fo solv dis

If yu plant na dem gron we no de kip wata, we yu de avest, dro di rut from di gron en shek am fo pul di doti from am.

Kip di shuga bit na ples we col, dray en get gud briz fo mek i no pwel. No kip am fo long na ples we wam o wet fo mek i no go rotin.

ICBA is an international not-for-profit applied agricultural research center with a unique focus on marginal environments where an estimated 1.7 billion people live. It identifies, tests, and introduces resource-efficient, climatesmart crops and technologies that are best suited to different regions affected by salinity, water scarcity, and drought, among other factors. Through its work, ICBA helps to create jobs and improve livelihoods, food security, and nutrition for some of the poorest rural communities around the world.
